We invite you to spread the word about Eden Theological Seminary's implementation of a "Network Model of Theological Education," funded by a grant for \$5 million from Lilly Endowment Inc. We are collaborating with the church and its institutions of higher learning to create greater access for leaders to be formed and empowered for transformational ministries in the congregations and communities they serve. In the press release, President Deborah Krause explains, "In the "Model of Theological Education" we are navigating a historic shift in the culture of higher education and of the church, and we are encouraged to do so in such good company and toward such good purpose."
