Notes

1. Based on the standard completion time for each degree as follows:

Standard Number of Completion Terms by Degree					
Degree Program	MCL	MDIV	MTS	MAPS	DMIN
Terms	3	6	4	4	6

After the standard number of terms, students still enrolled in a degree program will be assessed continuing registration fees of \$2,020/term for master's degrees and \$1,155/term for the DMIN.

2. Actual costs dependant on load. To calculate actual tuition fees, multiply the per credit hour rate by the number of enrolled credit hours. For example, students enrolled in 6 credit hours/term will pay $\$750 \times 6 = \$4,500/\text{term}$ or $\$9,000/\text{year}$.
3. Additional fees per term include: Student Fee (\$50), Technology Fee (\$150), and Graduation Fee (\$160 charged in final term).
4. Tuition and fees subject to change each academic year.
